

Conclusion

Delaware's Department of Technology and Information supports and enables the Governor's vision for effective use of technology solutions to help meet the needs of the citizens of Delaware. This Strategic Plan will provide the framework, along with the operational plans being developed by our Team Leaders, which will guide us as we make plans for the future. DTI will play a key role in helping the Governor and the Legislature move the state forward as we "face a new era of opportunity". DTI, in spirit of collaboration, is actively pursuing our vision of "Excellence In Delaware State Government" as we deliver on our service promises to our customers and stakeholders.

Our Service Delivery Model
